Little Goose Navigation Lock Reopens to Recreational Craft

Temporary repairs were completed this morning at Little Goose Lock & Dam, located at SN river mile 70. The lock will reopen to recreational craft lockage tomorrow morning, Saturday, April 17, 2004 at 8:00 a.m.

Commercial lockage will continue on demand and recreational craft will lock through on the regular winter recreational craft lockage schedule with lockage upstream at 8 a.m., 11:00 a.m. and 3:00 p.m.; downstream lockage at 8:30 a.m., 11:30 a.m. and 3:30 p.m. beginning Saturday.

The temporary repair will be monitored very closely for any problems that may make the lock unsafe for use.

Plans for the permanent repair continue. The actual lock closure date for all craft so repairs can be made has not been set, but most likely will not occur until at least the end of May. Additional information on this lock closure will be made available as soon as possible.

For additional information on this matter, please call Ann Glassley, at (509) 527-7115 or Carl Knaak (509) 527-7113.

Public Notices and other navigation lock information are available on the Internet at: <http://www.nww.usace.army.mil/html/offices/op/t/navdata/default.html>
